*N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

*For GIPS purposes, UMA assets are not part of Firm Assets and are not considered "under management" since Wedgewood has either no or only partial trading discretion and on occasion may be shown as supplemental information.

***Equity Composite** contains fully discretionary taxable and non-taxable growth equity accounts. For comparison purposes, the composite is measured against the S&P 500 and Russell 1000 Growth indices. The minimum account size for this composite is \$65 thousand.*

Wedgewood Partners, Inc. is an independent registered investment adviser. The firm maintains a complete list of composite descriptions and a list of broad distribution pooled funds, which are available upon request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance.

Returns are presented gross and net of fees and include the reinvestment of all income. “Net (Actual)” returns are calculated using actual management fees and are reduced by all fees and transaction costs incurred. “Net (Bundled)” returns are calculated by reducing the gross returns by the highest total wrap fee of 3.0%, applied quarterly. Pure gross returns are shown as supplemental information because wrap accounts are calculated gross of all fees and transaction costs. Gross returns of non-wrap accounts are reduced by transactions costs.

Some accounts in the composite may pay an all-inclusive wrap/bundled fee based on a percentage of assets under management; net returns for these accounts are reduced by all actual fees and transaction costs incurred. Wrap/bundled fee schedules are provided by independent wrap/bundled sponsors and are available upon request from the respective wrap/bundled sponsor. Total wrap/bundled fees may range up to 3.0% per year. Actual investment advisory fees incurred by clients may vary. Other than brokerage commissions, this fee includes investment management, portfolio monitoring, consulting services, and in some cases, custodial services. Wrap/bundled accounts represent approximately 64% of accounts as of December 31, 2023, 72% of accounts as of December 31, 2022, 71% of accounts as of December 31, 2021, 74% of accounts as of December 31, 2020, 60% of the composite's assets as of December 31, 2019, 59% of the composite's assets as of December 31, 2018, 40% of the composite's assets as of December 31, 2017, 35% of the composite's assets as of December 31, 2016, 41% of the composite's assets as of December 31, 2015, 42% of the composite's assets as of December 31, 2014, 47% of the composite's assets as of December 31, 2013, 39% of the composite's assets as of December 31, 2012, 56% of the composite's assets as of December 31, 2011, 63% of the composite's assets as of December 31, 2010, 60% of the composite's assets as of December 31, 2009, 51% of the composite's assets as of December 31, 2008, 54% of the composite's assets as of December 31, 2007, and approximately 59% of the composite's assets as of December 31, 2006 (On January 1, 2016, these values were updated to reflect a comprehensive review of wrap and bundled fee relationships). The annual composite dispersion presented is an asset-weighted gross standard deviation calculated for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The management fee schedule is as follows: 1.50% under \$1 million; 1.25% for \$1 million to \$2.5 million; 1.00% for \$2.5 to \$5 million; and 0.75% over \$5 million. Actual investment advisory fees incurred by clients may vary.

Prior to May 1, 2004, performance reflected total segment plus cash returns using a beginning of period allocation and a fixed total of 5% cash. As of January 1, 2010, no percent of the composite's assets were comprised of carve-out segments. As of December 31, 2009, approximately less than one half percent of the composite's assets were comprised of carve-out segments. As of December 31, 2008, December 31, 2007, and December 31, 2006, approximately 1%, 1%, & 2% of the composite's assets were comprised of carve-out segments. Carve-outs are included in this composite and performance reflects total segment plus cash returns using an actual pro rata allocation.
